UK Computing Summit 2025: Navigating change (surviving and beyond)

Session: Fireside chat - Women in Cyber

Annabel Berry
CO-Founder
Leading with Cyber

Annabel Berry FCIS is Co-Founder of Leading Cyber. With over 26 years' experience in Information Security, her work now guides and shapes organisations through leadership development programmes, executive coaching and empowering high-performing teams, all rooted in behavioural science - she is dedicated to creating positive cultures to underpin cyber resilience.

As Chair of the CyberNorth board, Executive Director of Ladies Hacking Society and a driving force behind mental health initiatives at the Chartered Institute of Information Security and the Mental Health in Cybersecurity Foundation, Annabel is deeply committed to industry growth, performance, inclusivity and wellbeing.
