UK Computing Summit 2025: Navigating change (surviving and beyond)

Session: Funding Opportunities PechaKucha incl. CPHC Special Projects Funding

Rebecca Strachan

Professor of Digital Technology and Education
Northumbria University

Find Rebecca on LinkedIn [here](#)

Rebecca is currently a Professor of Digital Technology and Education at Northumbria University where her research focuses on digital technology and education and on opening up opportunities for people in STEM including ICT. She is a member of the CPHC committee where she co-leads their work on Equity, Diversity and Inclusion and contributes to their Learning Development Group. As a senior member of IEEE, she has actively contributed to the work of their Education Society, with a focus on outreach and engagement with children and young people. She loves the changing nature of computing and digital technology and is keen that it is used for the benefit of everyone and also our wider world.
