UK Computing Summit 2025: Navigating change (surviving and beyond)

After dinner speaker

Sue Sentance

Director

Raspberry Pi Computing Education Research Centre

Find Sue on LinkedIn [here](#)

Sue is the Director of the Raspberry Pi Computing Education Research Centre in the Department of Computer Science and Technology, University of Cambridge. She received her PhD in Artificial Intelligence from Edinburgh University in 1993, and since then has worked as a secondary teacher, teacher trainer, university lecturer and researcher, including leading many initiatives in the field. In her current role she leads on research projects spanning physical computing, AI education, and teacher professional development. Sue's awards include the BCS Lovelace Medal for Computing Education (2024), the Suffrage Science award for Maths and Computing (2020) and the BERA Public Engagement and Impact Award for her services to computing education (2017).
