UK Computing Summit 2025: Navigating change (surviving and beyond)

Session: Spotlight on Apprenticeships

Irina Moniz

High Degree Apprentice (Digital Technology Solutions
Professional – IT Consultant)
Sheffield Hallam University

Irina is a Project Manager at Sheffield Hallam University, currently completing a Digital Technology Solutions degree apprenticeship. Her role sits at the heart of digital change, where she supports the delivery of key initiatives that improve IT services across the university. She has worked on projects such as the Windows 11 upgrade and the migration from Assyst to Unidesk, leading on pilot phases, coordinating testing, and managing stakeholder communications.

Irina is passionate about combining project management with practical technology solutions, and enjoys working in both Agile and Waterfall environments. Her goal is to grow into a leadership role within digital change, and she is committed to learning, adapting, and making a meaningful impact in the sector.
